Perquest Partners with 401(k) Provider to Provide Easy Payroll Services and Affordable 401(k) packages to Small Businesses

Small businesses now have one stop for affordable payroll services and 401(k)

April 21, 2008 – Perquest, an innovative provider of on demand payroll to small and medium size businesses, announced a partnership with The Online 401(k), the leading provider of full-service Web-based 401(k) plans for small and single-proprietor businesses.

“For many business clients, especially small business clients, an employee retirement plan may seem cost prohibitive,” said Tom Sinton, President and CEO of Perquest. “This partnership allows Perquest and The Online 401(k) to offer business owners an affordable full package including both payroll and retirement plan services.”

The nation continues to see a swell in small business start-ups, meaning more entrepreneurs are faced with questions regarding easy ways to pay employees and encourage those employees to save for retirement. The partnership of Perquest and The Online 401(k) gives clients nationwide access to experts in both areas.

About Perquest

Perquest is an innovative provider of on-demand payroll and employer services to small and medium size businesses in the United States. It delivers high quality, easy-to-use, comprehensive services marketed through a network of professional agents focused on helping businesses in their communities grow and prosper.
